USER MANUAL

How to Enable Age Restriction Pop-up Question

VERSION 26/05

Age Restriction Pop-up (SNG/POS 10” + 22”)

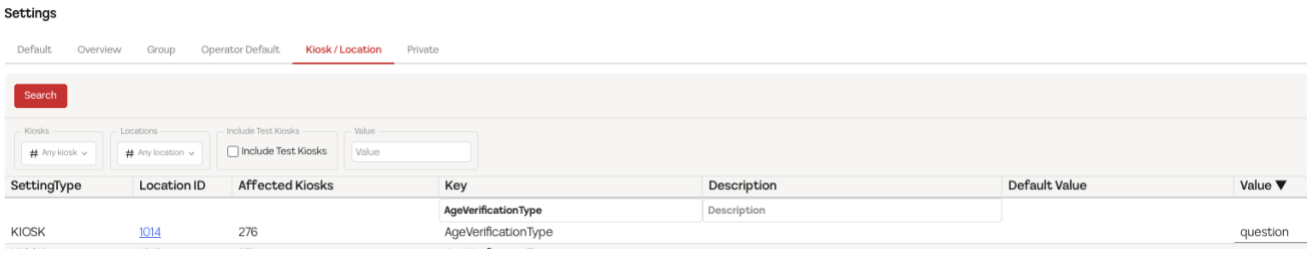
When a product has an age restriction, customers see a pop-up asking them to confirm they meet the required age before the item can be added to their cart.

If the customer has already confirmed an equal or higher age for a previous product, no additional pop-up appears for items with the same or lower age requirement. A new pop-up will appear only if they scan a product with a higher age restriction.

Requirements

- InventoryOS: 1.315 or higher
- Setting: AgeVerificationType = Question

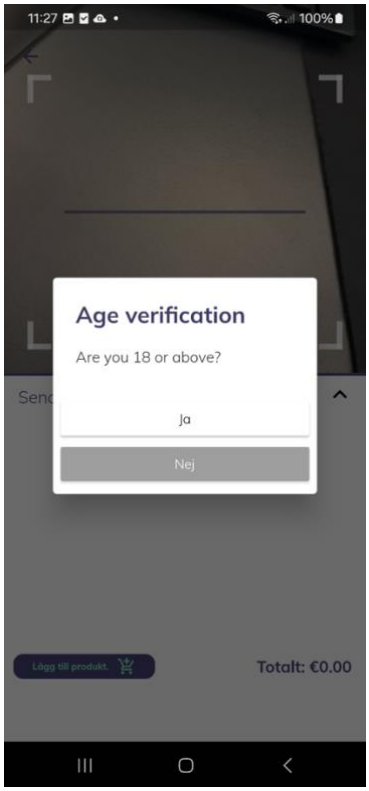
Active on: SNG/POS 10” + 22” (Scan and Go) systems.



How It Works in the App

When scanning an age-restricted product with the Lova App, a pop-up appears.

- Click **Yes** to add the product to the cart.
- Click **No** to cancel and not add the product.



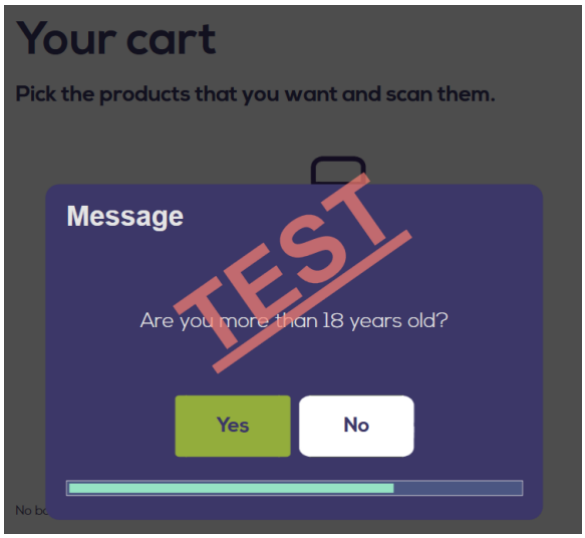
Localizations (App):

Keyword:	Default Text
are_you_age_title	Age verification
are_you_age_question	Are you @0 or above?

How It Works in the Kiosk

When scanning an age-restricted product on the kiosk barcode reader, a similar confirmation pop-up appears.

- Click **Yes** to add the product to the cart.
- Click **No** to cancel and not add the product.



Localizations (Kiosk):

Keyword:	Default Text
age_ver_ask_question	Are you more than {0} years old?
